OUTSTANDING ACHIEVEMENT FOR ALL

A message from the CEO

I am once again deeply appreciative to staff for offering such high quality educational experiences to students within our Trust - and to parents and carers, for your support.

Our feature 'Societies' story is just one example of this work. I am also delighted that our work extends beyond the Mulberry Schools Trust and has had such a positive impact on the schools and students with which we partner. Please read more about this on pages 2-3.

Each school brings something fresh and different to the table in this issue. I particularly love how Mulberry School for Girls leads the way on empowering our girls to become the leaders of tomorrow. The unique offer at Mulberry UTC, with its industry partnerships, sets it apart from other local schools. The curriculum offer at Mulberry Academy Shoreditch is academically rigorous with a generous sprinkle of fun, creativity and innovation. Mulberry Stepney Green shows off its amazing sporting prowess, whilst equally showcasing excellent partnership work with institutions such as Central Saint Martins, the world-renowned arts and design college.

As we approach the end of the Spring term, I wish you a wonderful and restful break, a happy Easter and a peaceful start to the holy month of Ramadan.

Dr Vanessa Ogden
CEO

Inspirational Societies give students a thirst for lifelong learning

In June 2021, the Mulberry Schools Trust launched six inspirational Societies led by Mulberry Academy Shoreditch.

The Societies sparked students' imaginations, giving them an exciting thirst for lifelong learning and introduced them to a taste of university life. Students from Mulberry Academy Shoreditch, Mulberry School for Girls and Mulberry UTC have been treated to an array of amazing trips, visits and events.

Since its launch, the Societies have immersed students in 69 exceptional and high quality encounters including trips to historic and iconic places such as Hampton Court Palace and Bletchley Park; talks and lectures addressing the Transatlantic Slave Trade, through to topics related to Behavioural Economics; seminars with local MPs, councillors and senior industry figures...and so much more - including a planned trip to Athens in September 2022!

The programme continues to inspire and present students with opportunities to extend their learning beyond the classroom and

excite their passion for university life. Each encounter is carefully linked to a curriculum strand and a top university in London. It has been simply amazing to see students from across the Mulberry Schools Trust engaging with each other, learning together and being inspired by what they have observed. Students are able to witness for themselves the brilliant facilities on offer at some of our world-class institutions and visualise themselves on those campuses one day!

For a full list events to date, see the back cover or download the poster here (https://bit.ly/36nX3FK)

MULBERRY STEM ACADEMY
IN PARTNERSHIP WITH MERCEDES-BENZ GRAND PRIX

www.mulberryschoolstrust.org/stemacademy @MulberryTH

First cohort enjoy lavish graduation ceremony

On Friday 25th February, 48 students from the first cohort of the Mulberry STEM Academy graduated at an incredible event hosted at Mulberry Academy Shoreditch.

The students were joined by parents, carers, headteachers from across our schools, trustees and speakers to celebrate the students' achievements.

During the event, guests were addressed by Paul Mills, Chief People Officer at Mercedes-Benz Grand Prix Ltd (MGP) and Dr Ogden, CEO at the Mulberry Schools Trust (MST). Graduate representatives from Mulberry Academy Shoreditch and Mulberry School for Girls also gave an address and spoke passionately about their experiences on the programme.

All students graduated with a certificate, a presentation badge and a Mercedes winners T-shirt. Five students were awarded the individual PRIDE awards and a prize for best exemplifying Passion, Respect, Innovation, Determination and Excellence. The Mulberry Academy Shoreditch team won the Best Team award and took home special MGP Rubik's cubes!

A very big thank you to Mercedes-Benz Grand Prix Ltd for partnering with the Mulberry Schools Trust to give our young people such amazing opportunities.

Read more about the day's event and watch the highlight video here (https://bit.ly/381ufn0)

Greenpower project update

The second cohort of STEM scholars are already deeply immersed in the Greenpower project. The project is currently running with Year 12 students at Mulberry Academy Shoreditch, Mulberry School for Girls and Mulberry Stepney Green, who are dismantling last year's cars, and rebuilding them with improvements including body work, wheels, driver position and careful consideration to aerodynamics and efficiency. We are racing in the heats for Greenpower in May.

We are very grateful to Peter Hodgkinson from MGP who visited our schools to advise us on the project.

In the summer term, Year 10 will be involved in building the cars. We will also be hosting the primary school London heat of Greenpower Goblin cars at Mulberry Academy Shoreditch in June.

NEWS IN BRIEF

Let EPQ commence…

On Saturday 12th March, a conference of over 40 Year 12 students in cohort 2 took place to launch the Extended Project Qualification process. An EPQ is a qualification that is worth half an A level. Students select a topic that they are particularly interested in beyond what they are taught at A level, then plan and carry out an independent project resulting in a 5000 word dissertation.

Year 10 robotics launch

All 55 Year 10 STEM scholars joined together for a robotics launch recently. Students worked in groups and learnt how to programme and code our MST robots so that they talked, walked and moved. In a world of increased automation, the skills of coding, programming and robotics are highly sought after by employers in the STEM field.

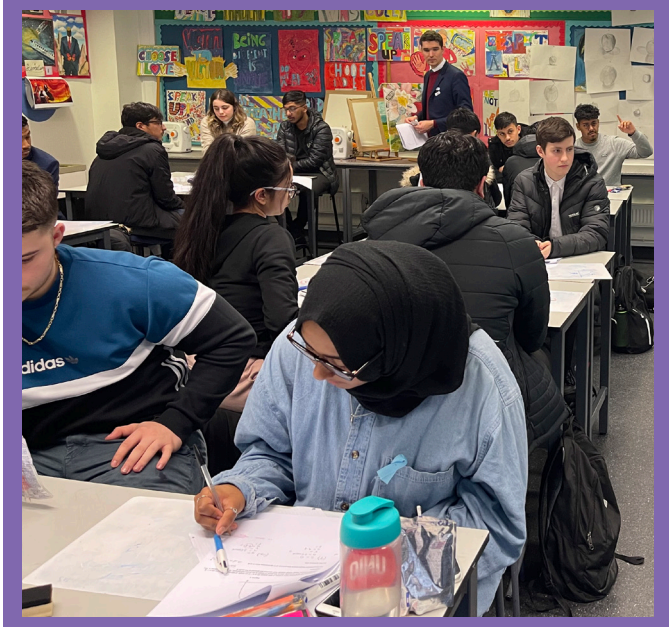
Maths students aim higher

This term we have run three Trust-wide Maths conferences over a weekend.



The conferences were an opportunity for teachers and students to collaborate together on key topics on the GCSE and A level specifications. Over 150 students participated and benefited from high quality teaching and revision from some of our best Maths teachers.

Reconnect London brings leaders together to tackle disadvantage

Reconnect London is a collaborative network of London school and system leaders which was founded in 2020 by Dr Vanessa Ogden, CEO of the Mulberry Schools Trust and David Boyle, CEO of Dunraven Educational Trust in south-west London. The network brings together school leaders in a way that helps to increase collaboration and cooperation between them.

The work of Reconnect London is also supported by third sector organisations such as Teach First, the FEA and the EEF. The aim is to support schools to share good practice, as they seek to build innovative solutions to key challenges that have emerged following the pandemic. There is a particular focus on meeting the needs of disadvantaged and vulnerable children, who have been disproportionately impacted by Covid-19.

Headteachers from across the Mulberry Schools Trust are actively involved with the network.

The Reconnect London annual conference will take place on Friday 24th June 9.30am-1pm. Visit **www.reconnectlondon.org** for more information.

Youth Conference reaches 20-year milestone

On Thursday 24th February, students from Mulberry School for Girls led and hosted the Mulberry Schools Trust's 20th anniversary Youth Conference.

This award-winning, annual conference brings Sixth Form students together from across the Trust and UK to explore issues of common concern. The skilled student leadership committee at Mulberry School for Girls set the conference theme as "Reimagining Equalities in a Post-pandemic world".

On the day, they had the privilege of hosting an inspirational array of speakers including Mandu Reid – the ground breaking first Black, female leader of a UK political party; Justin Audibert – Creative Director of the Unicorn Theatre, the 'People's Poet' David Neita and many more. Thirteen schools and over 250 students came together to share their unique perspectives and to consider ways they could be agents of change.

This powerful day was the perfect way to mark 20 years of youth activism that the conference has supported.

ELTSH leading the way!

This term, 156 participants from across East London have signed up to complete Specialist and Leadership National Professional Qualifications with the East London Teaching School Hub.

By the end of March, all participants will have attended their first online session with us, led by our expert facilitators from across the region.

There are now over 750 teachers and leaders, from over 67% of all schools in Hackney and Tower Hamlets, learning with East London Teaching School Hub. The strength of learning from and with colleagues from across East London is palpable!

Visit **www.eastlondontsh.org** to find out more about the programmes we offer.

Students lead languages and cultural diversity celebrations

On Monday 21st February, to mark International Mother Languages Day our Student Equalities Group planned and led a series of whole-school events to promote awareness of the linguistic and cultural diversity of our school community.

The highlight of the day was undoubtedly the multilingual culture fair. The main hall was awash with wonderful sights, sounds and enticing aromas from fabulous traditional foods. Students loved the opportunity to immerse themselves in the 17 different culture stalls hosted by students and staff. The event was a wonderful celebration of the cultural heritage and richness found within our school community.

The group also supported staff and students to create special language videos in 15 of the languages spoken in our school community. In just one day, more than 520 lessons were viewed in languages as diverse as Arabic, Bengali, British Sign Language, Darija, French, Greek, Irish, Kurdish, Polish, Romanian, Somali, Tachelit, Welsh and more! A whole-school multi-lingual poetry competition also launched during PSHE on the following Wednesday.

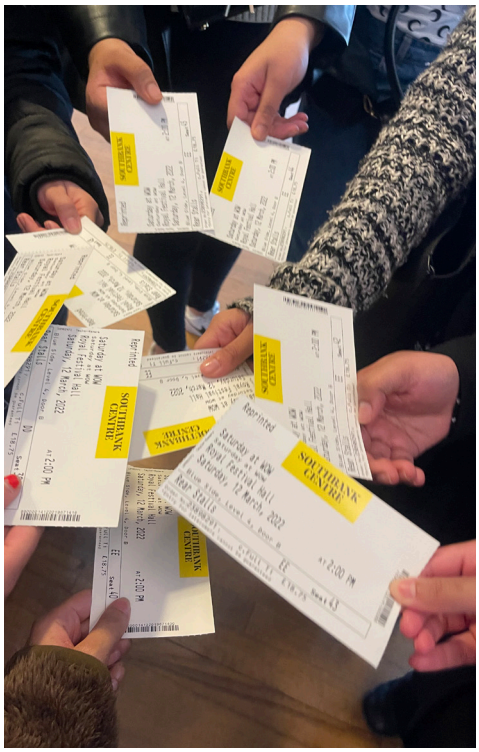
Congratulations to the Student Equalities Group on a superb series of celebrations. We look forward to your next work!

WOW Weekend at the South Bank Centre

On Friday 11th – Sunday 13th March, students from Mulberry School for Girls attended the world's biggest, most inclusive festival celebrating women, girls and non-binary people.

What a weekend! The Women of the World (WOW) Festival is held annually at the Southbank Centre and this year we were lucky enough to have tickets for all three days. The weekend allowed our students to hear directly from world-class speakers and see wonderful female role models.

Students were able to hear the perspective of a wide range of speakers and leaders as well as learn about the great work and personal journeys taken by each keynote speaker.



Highlights from the Festival

- **Students heard from experts on managing finances, learnt about the importance of protest and saw a live demonstration of Fencing**
- Students heard from the incredible Patrisse Cullors (co-founder of the Black Lives Matter Movement) on her journey to fight injustice and the journey on getting an abolitionist mindset
- **Warsin Shire (Somali British author) spoke about her experience of being raised in the UK in a Somali household through her poetry and book 'Bless the Daughter'**
- Mary Portas (retail consultant and broadcaster) spoke about the importance of kindness within leadership and learning to become a compassionate yet powerful leader while setting down your boundaries

Year 7 enjoy pantomime performance

All students in Year 7 travelled to the Stratford East Theatre at the very end of last term for the pantomime performance of Little Red Riding Hood.

We were incredibly proud of our students who demonstrated the most enthusiastic participation of all schools in attendance. Students laughed the whole way through and commented that the character playing Little Red Riding Hood was by far their favourite!

Standing up for peace

On Friday 4th March, students held a powerful Peace Day event.

Students and staff came together to reflect on world events, the meaning of peace and to consider our own role in creating a more peaceful world. Our school community wrote almost 1,500 messages of hope which were used to create a Wall of Peace.

The student-led fair raised £850 for UNICEF and these donations will provide life-saving support for children and their families in Ukraine

and other conflict-affected countries. Congratulations to Liliana Noor and the Year 12 leadership team.

Winners at Model United Nations

On Saturday 5th March, 17 Year 9–11 students attended the West London Model United Nations Conference and competed against a range of elite London independent schools.

The Model United Nations programme is an academic activity in which participants assume the role of national ambassadors to debate and seek to solve global issues. Our team was thrilled to win more awards than any other school – taking home awards in six out of the eight committees. Former Mulberry alumni university students served as Directors or Chairs in seven out of the eight committees. The global MUN community continues to create fantastic networking opportunities for our students.

We look forward to hosting our 30th conference in July.

UKMT success!

Sixty students from Year 9 and 10 took part in the UK Maths Trust intermediate challenge - the first round towards the Mathematical Olympiad Qualification.

Our students demonstrated their excellent problem solving skills as well as resilience to gain a large number of certificates. Three students from Year 9, Jannah Ahmed, Samia Hashem and Nashita Noor, qualified for the next round entitled the Grey Kangaroo.

Here's a question they all managed to solve – can you?

QUESTION

A rectangle with integer side-lengths is divided into four smaller rectangles, as shown. The perimeters of the largest and smallest of these smaller rectangles are 28cm and 12cm.

Which of the following is a possible area of the original rectangle?

A. 90cm² **B. 92cm²**
C. 94cm² **D. 96cm²**
E. 98cm²

Mulberry UTC
Where learning works

Mulberry UTC welcomes future students

On Thursday 10th March, Mulberry UTC opened its doors to welcome over 200 fantastic students from all over London.

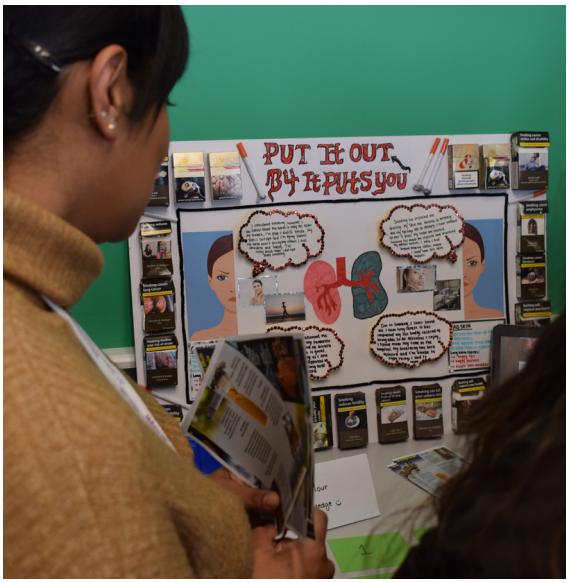
Alongside our curriculum showcase, we were lucky to be joined by some of our amazing industry partners including Barts Health NHS Trust, the National Theatre and Goldsmiths University of London. We were also joined by partners Ipsos MORI, Royal Pharmaceutical Society, University College London, the University of Sunderland in London and the Metropolitan Police who gave students invaluable advice and guidance about breaking into their industries as part of our MUTC Futures Careers event.

Mulberry UTC now has almost 500 applications from students wishing to join us in Year 12. We are planning a suite of activities to keep in touch with our applicants and can't wait for them to join us in September 2022.

Year 12 work hard to promote health campaign

Year 12 Health and Social Care Extended Diploma students delivered a health promotion campaign as part of a unit they are currently learning.

The campaign focused on promoting health and wellbeing of their peers. Students chose a variety of campaigns including sexual health, awareness of smoking cigarettes/vapes and the importance of healthy eating. Students also used questionnaires to measure the success of their campaigns before and after the event.



Hats off to Year 11 Business students

Our Year 11 Business students are currently designing a business proposal for an enterprise producing distinctive hats. They will identify a target market segment, complete market research, produce a design for a hat and will review whether their business proposal is viable at the end of the assignment.

Students rise to the challenge at careers festival

On Tuesday 8th March, the Rise Up Academy Careers Festival took place at Mulberry UTC.

It involved over 100 Key Stage 4 and 75 Key Stage 5 students from across our Trust and we were privileged to lead this prestigious event.

Students met colleagues from high profile media and broadcast engineering companies like Amazon, BBC, BT Sport, dB Broadcast, ITV and Sky. Our MUTC digital media students then supported technicians in setting up a live panel as part of International Women's Day.

Students across the Trust interacted and networked with industry professionals and developed exciting connections which could impact their future careers.

NEWS IN BRIEF

Bravo! Year 13 in cutting-edge trial performance

Year 13 students performed 'The Trial' for Unit 8 in Performing and Production Arts in the school's cutting-edge studio theatre. The CTEC course is very popular and prepares students for careers in theatre, acting and production design.

Digital Media students enjoy BBC news webinar

On Wednesday 9th March, our Year 11 Digital Media students took part in an exciting webinar with the BBC which was led by journalist Ros Atkins.

The Year 11 students heard about how he manages big issues in the news and how he has learnt to present these in short, straight-talking reports. During the webinar, students explored why trusted news matters and the importance of distinguishing different sources and context in our consumption of news.

Year 10 students climb to the top

During the spring term, MUTC Year 10 students have been learning rock climbing skills at Laburnum Boat Club's rock climbing wall. They have also been building towards gaining a First Aid qualification via an eight hour course delivered at Mulberry UTC by the club.

Taster day huge success with the girls!

On Thursday 3rd March, we were joined by 30 Year 9 students from Mulberry School for Girls who took part in a Mulberry UTC taster day, gaining experience in all our specialisms through our practical, hands-on workshops.

It was a really fun, interactive day and it was a privilege to host such engaged students!

We really hope some of the girls will join us in September.

World Book Day

From Monday 28th February to Thursday 3rd March we celebrated books and the power of reading with some inspiring talks and workshops.

On Tuesday 1st March, Year 10 students tuned into a live streamed conversation with BAFTA and MOBO award-winning hip-hop artist, writer and social entrepreneur Akala, who was speaking from the Southbank Centre to mark the release of his new book, The Dark Lady. Students were offered a copy of the book afterwards to read at home and they also received their free World Book Day books.

On Thursday 3rd March, Year 7s watched as authors celebrated the launch of World Book Day from the stage of Mathilda the Musical. Students were treated to readings and performances from many famous authors and illustrators including Children's Laureate Cressida Cowell, Humza Arshad, Frank Cottrell-Boyce and Maisie Chan, and they also had the opportunity to watch a short performance from the cast of Matilda!

Year 8 students took part in workshops focused on an extract from Run, Rebel by award-winning author Manjeet Mann. During the workshop, the students watched Mann read the extract they were studying, had a go at writing their own verse in the same style, and practiced performing a short section of the extract.

In the World Book Day tradition, Year 7s came to school dressed as their favourite fictional characters and there were prizes for the best dressed!

Executive Principal: Mrs Ruth Holden

IWD 2022: Visits, workshop, assemblies + panels galore!

On Tuesday 8th March we celebrated International Women's Day 2022 with a packed programme of events and activities.

The day began for Year 12 girls with a visit to the Canary Wharf Group where they listened to speakers and joined in a Q&A session with professionals from the built environment sector.

At break time, Ms Kilmanaite introduced students to the work of some famous women artists and they coloured postcards based on the artists' work.

The English department ran a session to celebrate their favourite female writers. Each teacher chose a famous author/poet and then asked students to write about their own favourites. It was great to receive feedback from authors Serena Patel and Majeet Mann in response to Halima and Amelia's words about their work.

Mrs Holden held assemblies for girls in Years 7-10 where she celebrated women who inspire us today and in the past, and after lunch a panel of female staff held a talk and Q&A session with Year 7 students focusing on the career pathways that have led to their current roles in school.

"My favourite women author is Serena Patel because she writes about a brown girl in school, and I feel I can relate to it a lot since I am brown myself and there aren't many books like this. Also, her books are extremely funny, and they make me smile all the time."
Amelia, Year 7

"One of my favourite female authors is Manjeet Mann. She is an Indian actress, playwright, screenwriter and director. She is the founder of Run the World - an organization that works with women and girls from marginalised backgrounds and helps to empower them through sport and storytelling. I like her books because they show the real traumas and experiences people face. It also spreads awareness and helps us understand a bit better of what people go through. One of my favourite books she wrote was 'Run, Rebel'..." Halima, Year 9

The theme for this year's International Women's Day was #BreakTheBias and throughout the day students enjoyed a celebration of women's achievement and a chance to talk about and raise awareness against gender bias.

Tower of London reward trip

On Wednesday 9th March, Mrs Holden took eleven students out on her termly Principal's Reward Trip.

This term they went to the Tower of London where they had an amazing time marvelling at the crown jewels and exploring the white tower and creepy dungeons! Everyone had fun and the afternoon ended with ice cream! A big well done to Melissa Kibrom, Victoria Chaponova, Kadir Cinko, Yusuf Haque, Mariam Hussein, Linh Pham, Zaynah Uddin, Anisa Rahman, Inaya Tasnim, Diana Lita and Bushra Kashemi for being superstars!

House basketball tournament

Congratulations to Thames House basketball team who won the tournament on Thursday 3rd March, with Tate in second place and Trafalgar in third place. Well done to everyone who took part and a big shout out to George Younger and Joe Murphy, our special guest referees!

Sixth Form enrichment

Every Wednesday Sixth Form Enrichment group the 'London Foodies Club', visit different London eateries to sample the diverse flavours and foods on offer in their city. On Wednesday 2nd February, they took their inspiration from Taiwan and headed to T4 for Milk Tea near Liverpool Street where they enjoyed tasting tapioca pearls, coffee jelly and some Oreo toppings. The following week the Foodies walked to Spitalfields for some comforting desserts at Humble Crumble and have since been to China Town to try Korean corn dogs. They are planning to sample delicious Tempura, Ramen and Lebanese cuisine in the next few weeks!

Year 12 students embark on aspirational trip to Canary Wharf

On Thursday 10th March, a number of our Year 12 students with very high aspirations took part in a potential early application programme at the Situs AMC offices in Canary Wharf.

Our students took part in a number of sessions and came back feeling very proud of making good impressions with their potential mentors. Situs prepared a variety of enriching sessions for our students. The first session focused on communication and etiquette in a formal business setting, their second session focused on how our students should be preparing for and writing their UCAS personal statements. In the third session our students had the opportunity to have a more personalised session with their business mentors where they were able to explore their potential career aspirations as well as planning the next steps to achieving their career goals.

The entire event was a huge success and every student benefitted from this opportunity. Thank you to Situs for their continued commitment to our students.

Our girls compete in top athletics competition

On Tuesday 1st March, Mulberry Stepney Green hosted the first ever Girls Indoor Simmons Cup at Lee Valley.

The Simmon's Cup is a prestigious London wide competition in athletics and aims to bring schools together from across London. Mulberry Stepney Green is very proud to lead, organise and compete in the event. With 15 of the top schools across London participating in the event, this was a great opportunity for the students to go up against some of the best

athletes in their age group. The students all performed extremely well and it was an excellent experience for them all.

Success at local football tournament

Congratulations to the Year 9 football team who won the Tower Hamlets Football Tournament at Victoria Park in February. There were 12 other teams from Tower Hamlets. This s a great reward for their dedication to training throughout the winter. Good luck as they continue with their league matches into the summer.

Mulberry Stepney Green join Greenpower competition

It is official, Mulberry Stepney Green are now competing in the Greenpower race competition!

Our staff, students and parents are extremely excited at the prospect of competing in the Greenpower race and relishing every moment. The students have started enhancing the first vehicle whilst a second kit car is on order – all in preparation for the races in the summer term.

A huge thank you to the Mulberry STEM Academy and Mulberry School for Girls for lending their vehicle to us.

Ben Jonson Road, Stepney, London E1 4SD
020 7790 6361 mail@mulberrystepneygreen.org
www.mulberrystepneygreen.org
Headteacher: Mr Paramjit Bhutta

It's a win for the girls' and boys' hockey teams

On Tuesday 22nd February, the Year 7 and Year 8 Girls' and Boys' Hockey Teams attended the Borough Hockey Tournament at John Orwell.

Both teams played very well throughout the competition and showed true determination and resilience to win!

The boys' team played London Enterprise Academy in the final and at half time were 3-0 up, however, LEA managed to score 3 consecutive goals within the first few minutes of the second half. The boys did not give up and got a winning goal just before the final whistle. The final score was 4-3.

The girls' team also played London Enterprise Academy in the final with a half time score of 3-0 also. The girls continued to perform well and scored a further three goals in the second half, even after LEA had secured another goal. The final score was 6-1.

Girls' futsal tournament ends in triumph

On Thursday 3rd March, our Year 7 and Year 8 girls took a trip to the Copper Box Arena to compete in the Borough Futsal competition.

There were 10 teams competing from across Tower Hamlets. Both teams played extremely well throughout the competition and, as always, showed determination and a desire to never give up!

The teams went through to the conference cup where the A team beat London Enterprise Academy to progress onto the finals and the B team was unfortunately knocked out on penalties to Wapping High. This meant it was a Mulberry Stepney Green vs Wapping High final. It was a very intense game and Wapping went 1-0 up very quickly.

However, Maryum managed to score a great goal just before the final whistle. Another round of penalties, two misses on both sides (and some great saves from Samina) and the last penalty for both and then Umayrah stepped up and scored an amazing goal! The pressure was on Wapping to score, but thankfully they missed and Mulberry Stepney Green took away the Conference Cup! Hoorah for a tense but impressive game of Futsal.

Sixth Form curriculum offers access to world-leading arts institution

Mulberry Stepney Green Sixth Form is unique in being able to offer a creative curriculum that allows students to focus on the three specialist disciplines of fine art, graphic communication and product design.

This is especially useful for those wishing to pursue a career in the creative industries. Each area focusses on developing problem solving skills, drawing skills and creating personal responses to a theme.

Last year, a group of students were accepted to Central Saint Martins, University of the Arts London and its partner site, London College of Communication to study Graphic Communication. This was especially exciting due to the status of the university being ranked first in the world for the arts.

We celebrated their work and the creative achievements of our current A level cohort by holding our annual exhibition at the Arts Pavilion, with a private viewing at the end of March. The exhibition will be open for two weeks to members of the public and is a fantastic opportunity to see the work of our talented students. The work that will be on view will range across all three disciplines including models, animations and paintings. We look forward to welcoming all to the private view.
